MOJO BARRIERS — PRODUCT DATA SHEET

Alternative Doors

Alternative Doors create a lockable passage in a barrier line for crew and pedestrians, including most wheelchairs. The 1.00 m door has a sloped floor plate and opens away from the crowd.

1.00 m DOOR

The door is suited to pedestrians, crew and most wheelchairs. It has a sloped floor plate and a locking handle at a convenient height, covered so that it cannot be operated from the front. The door unit consists of a floor plate and a loose door and attaches to standard straight sections. In the line, it measures 2.18 m in length and 1.25 m in depth. The door opens away from the crowd and comes in left and right opening versions.

Details can vary slightly between production series; your rental company will confirm the exact values.	

CERTIFICATION

INDEPENDENT TESTING

No separate certificate is available for the Alternative Doors. Certificates and test reports for the Mojo barrier range are listed on the certification page.

Mojo Barriers BV develops its barrier systems and has had them independently tested since 1996. Certification is carried out by independent bodies such as TÜV NORD.

All test documents: mojobarriers.com/certification
